

Wyming Brook

- Ongoing maintenance works:**
- Strimming PRow including Wyming Brook Drive x3 times over the summer growing season (May to September).
 - Cutting back overhanging branches along PRow to retain access.
 - Filling in the potholes at Redmires Road car park.
 - Removal of litter and fly tipping at Redmires Road car park.
 - Cutting the grassland adjacent to the stepping stones to provide a useable area for visitors to picnic etc.
 - Ongoing drainage works with culverts being cleared of silt & leaf litter.
 - Small amounts of Himalayan Balsam control in x2 separate locations.

Work completed: Culvert unblocking, silt traps installed, new additional culvert created and resurfacing of WB drive - funded by the Reece Jeffries Road Fund.

Work planned: Bracken spraying to retain heather & bilberry habitat - August / September 2015.

Work completed: A variety of bracken spraying to stop the heather bilberry being outcompeted scrub control to stop the encroachment of the woodland onto the heath and heather cutting to provide a mosaic of different aged heather stands - funded by SITA.

Work completed: Woodland thinning (25-30%) of beech, sycamore and conifer. Alder & willow retained along the wet flushes - funded by the Forestry Commission. Follow up planting of Oak & Hawthorn species funded by the Environment Agency.

Work planned: Further woodland thinning this winter as described above.

Work planned: Repairs to the retaining walls that were uprooted in the winter are due to take place over the next couple of months. We have successfully claimed on our insurance and just need to organise a contractor to complete the work.
