

A more natural, connected & resilient landscape and a better understanding of **eco-system services**.

Above: **Agden bog above Bradfield—** home to rare plants & wildlife & also important for natural flood management. *Photo N. Abbas*

A celebration of our rich cultural heritage, stories and memories.

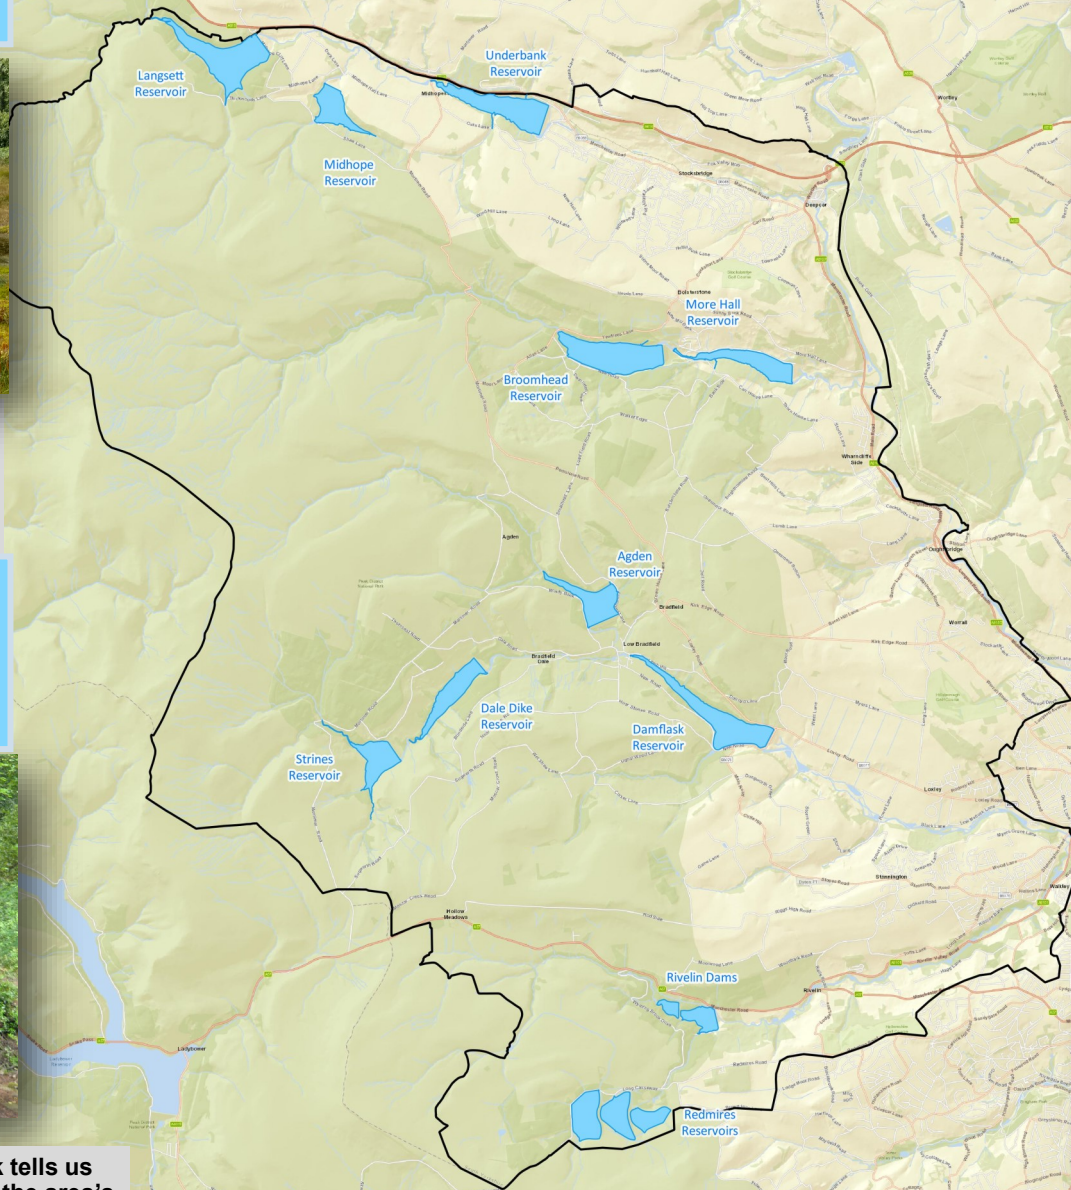

Above: **A pack horse bridge at Glen Howe Park** tells us about the building of the reservoirs as well as the area's trading past. *Photo T. Bagshaw*

Right: **Co-ordinating forestry management** will benefit Goshawk and Nightjar. *Photo Sheffield City Council*

Sheffield Lakeland Landscape Partnership

A more natural and resilient landscape for everyone to value, enjoy, understand and feel part of.

A shared understanding of what makes the area special for people & wildlife.

Working with our partners to balance the needs of wildlife, recreation and productive land management at our most popular locations. *Photo T. Bagshaw*

Water vole are threatened with extinction in Sheffield. We will work to protect them. *Photo G. Badham*

More people active & engaged in the future of the Sheffield Lakeland landscape.

Our Vision

A landscape for everyone to enjoy and feel part of, that is cherished, understood and valued now and in the future, where a resilient network of diverse habitats thrives alongside the area's living, productive landscape, rich heritage, vibrant communities and strong traditions.

The Sheffield Lakeland Landscape Partnership is led by Sheffield and Rotherham Wildlife Trust, working with Sheffield City Council, Bradfield Parish Council, Stocksbridge Town Council, Sheffield United Community Foundation, South Yorkshire Archaeology Service, Yorkshire Water, Natural England & the Environment Agency, with support from representatives of landowners & access groups.
