

#ActionForInsects

A simple guide for Local Authorities

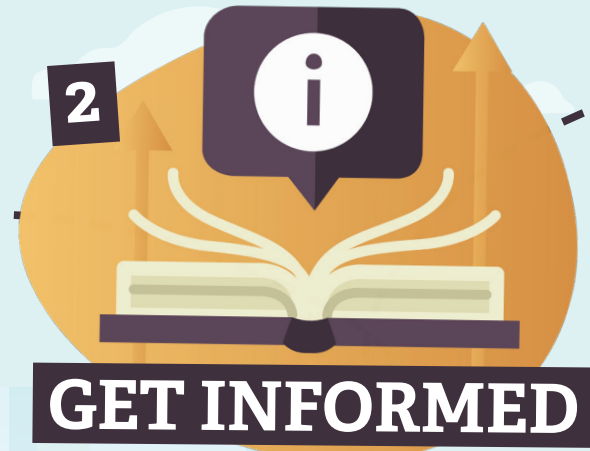

IN ANY ORDER

Actions you can take ...

1. Make a public commitment to help insects and other wildlife thrive.
2. Seek advice and train your staff - fill your ranks with experts.
3. Embed insect recovery into your official policies, strategies and plans.
4. Designate areas to leave wild and let things grow!
5. Create wildlife corridors by managing road verges for nature.
6. Reduce use of pesticides on public land.
7. Create and restore insect-friendly habitat.
8. Promote public awareness and engagement.
9. Help other land managers to take action as well.
